

On 9 July 1948 a meeting of representatives of the following was held to determine procedures for the dissemination of JANIS and NIS: PPS, ORE, OCD, I&S AND BIG. The following decisions were taken:

1. I&S to forward to BIG a memorandum approving an ORE recommendation that CIA security procedures be liberalized to the extent of dispensing with CIA clearance for each individual in a non-IAC Agency who will have access to JANIS classified CONFIDENTIAL or lower and substituting for such clearance the operation of the non-IAC Agency functioning under the non-IAC Agency Liaison Control Authority Officer.
2. No automatic dissemination of JANIS to be made to non-IAC Agencies. Upon receipt by OCD of requests from such Agencies for JANIS of confidential or lower classification, OCD to forward to BIG a request for release. If BIG approves the release of the JANIS, BIG to return a release memorandum to OCD. OCD then to prepare the security instruction letter required by the I&S memo and one of the following actions:
 - a. If the JANIS is in custody of CIA, transmit the JANIS along with the security instruction letter to the liaison officer of the requesting non-IAC agency.
 - b. If the JANIS is in custody of AMS, transmit to BIG release memorandum for signature and security instruction letter for transmittal to AMS with a request that AMS send the JANIS and security instruction letter directly to the Liaison Control Authority Officer of the requesting non-IAC Agency.
3. While AMS continues to store JANIS, BIG, as heretofore, to authorize AMS to release JANIS directly to the IAC Agencies.
4. OCD to disseminate JANIS in CIA custody to IAC Agencies and CIA after approval by BIG.
5. Present CIA security procedures to obtain for dissemination of JANIS of a classification higher than CONFIDENTIAL.
